

IKON BASIC 114

The all-rounder for the whole family.

The IKON BASIC is not only suitable for beginners; the big jumping mat provides enough space and security for all levels of fitness training. 32 elastic ropes create a smooth jumping experience that is easy on the joints, and make for quiet training sessions. The BASIC has eight solid feet and comes with a height-adjustable, removable handlebar, which gives additional safety and security. The feet are simple to screw off, allowing the trampoline to be stored easily to save space.
