EQUIPMENT

· 1 Bag
· 1 Motor unit G-SPORT ³
· 2 Boots size "S" or size "M" or "L"
· 2 Connection cables
· 1 Power supply unit
· 1 Power Bank
· 1 Operating manual

MODE A: the program sequence consists in the inflation and deflation of boot sectors one by one to execute an activating massage, ideal before the competition or training.

MODE B: the program sequence consists in the inflation and deflation of two chambers at a time to avoid fluid reflux downwards and make the treatment effective and very comfortable.

MODE C: the program sequence consists in the sequential inflation of all the chambers and their simultaneous deflation, ideal for a deeper massage.
